For LED Strip up to 11mm wide

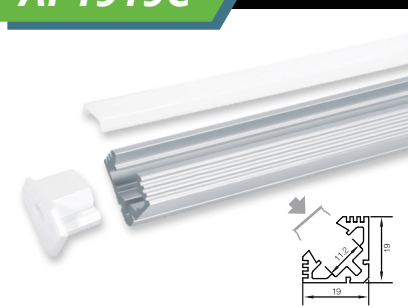

Flanged profile to  
recess/conceal cut edges.  
Clear polycarbonate cover  
or combine with an opal  
diffuser and 120/m LED strip  
to achieve even ultra-bright  
lighting.

**Material:**  
6063 Silver Aluminium

### AP1919C

For LED Strip up to 11mm wide

Ideal for lighting corners.  
Clear polycarbonate cover  
or opal diffuser.

**Material:**  
6063 Silver Aluminium

### AP1506

For LED Strip up to 11mm wide

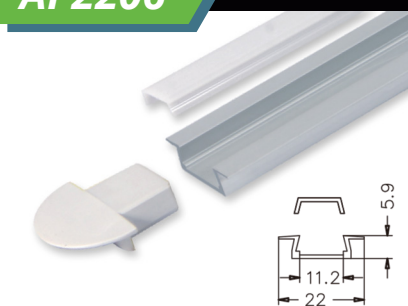

Very low profile.  
Clear polycarbonate cover  
or opal diffuser.

**Material:**  
6063 Aluminium

### AP2206

For LED Strip up to 11mm wide

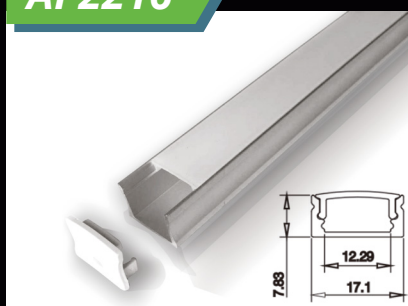

Low, flanged profile.  
Clear polycarbonate cover  
or opal diffuser.

**Material:**  
6063 Aluminium

### AP2216

For LED Strip up to 18mm wide

Use for edge-to-edge  
lighting.  
Clear polycarbonate cover  
or opal diffuser.

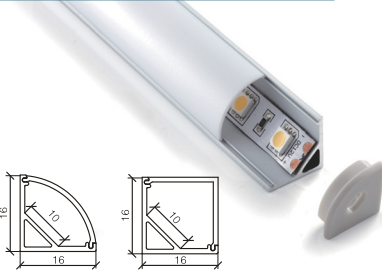

**Material:**  
6063 Aluminium

# ALUMINIUM PROFILES

## FOR PROLUX LED STRIPS

### AP1616/AP1606

For LED Strip up to 10mm wide

Profile for corner lighting.  
Clear polycarbonate cover or opal diffuser.

**Material:**  
6063 Aluminium

### AP3030

For LED Strip up to 10mm wide

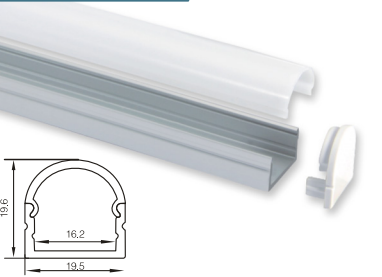

Profile for corner lighting.  
Clear polycarbonate cover or opal diffuser.

**Material:**  
6063 Aluminium

### AP2016

For LED Strip up to 16mm wide

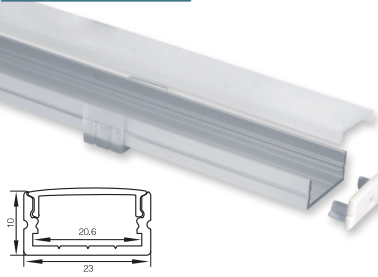

Profile for rounded, edge-to-edge lighting.  
Clear polycarbonate cover or opal diffuser.

**Material:**  
6063 Silver Aluminium

### AP2310

For LED Strip up to 20mm wide

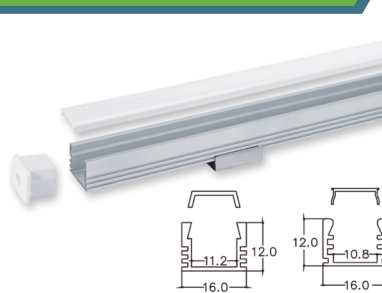

Profile for flat, edge-to-edge lighting.  
Clear polycarbonate cover or opal diffuser.

**Material:**  
6063 Silver Aluminium
